Hey guys, I'm Licky Slime and I will be continuing this walkthrough. Big shout out for Zoey Raven who used to do it; he did an amazing job with it. He said he would not continue, but since some people have been asking for an up-to-date walkthrough, I decided to pick up where he left off. I tried to keep the same format he used so it would be easier to the ones who had already used this walkthrough before. I hope it helps you during the game in case you need it. Keep in mind that I don't know what Jestur has planned for the game, so I don't know what consequences every choice has, but I will keep the walkthrough updated as the game is released. Also big thanks to Degrs for helping proofread the walkthrough and fix the typos.

With Episode 6, the walkthrough got a major cleanup with the help of Thor's Hamster. Thanks a lot for the help. Hopefully it will make things easier to read and understand.
